

Permaculture Relationships

Phase 7 — Harvest

Why
Permaculture
Relationships?

A small green seedling with several leaves is growing out of a mound of reddish-brown soil. The background is a dark, gradient blue. The text is overlaid on the image in a white, serif font.

PHASE 7
True and Enduring Love

“Your reap what
you sow”

Take the Good Times When they Come

- * The best memories happen spontaneously
- * We plant the seed, but nature ripens the fruit

Good Farmers take a Long Term Perspective

- * Profound things take time
- * There may be a long period where it seems like nothing is happening
- * Anything worth having is worth waiting for

Good Works Yield
Compounding
Interest

Method #1 — Past Relationships

- * What do I like about my previous relationships?
- * What do I not like about my previous relationships?
- * What did I do to contribute to those outcomes?
- * What did my partner do to contribute to those outcomes?
- * What was out of our control that contributed to those outcomes?

Method #2 — Seed Catalog

- * What have I done in the last month to contribute to the relationship reaching its goals?
- * What have I done in the last that hindered the relationship from reaching its goals?
- * Am I putting what I want to get out of the relationship in to the relationship more often than not?
